About Us

- Steelplan Sdn Bhd was registered and incorporated on Feb 15th, 2017. We have been the contractor to various industries since 2017 and we have been providing our quality services for over pass years.
- We are providing our services to construction, steel engineering, equipment installation and manufacturing of our own products to our valued customer.
- We are fully licensed specialist in all facets of building construction, maintenance and refurbishment, programmed maintenance works and other specialized works. Our principals have over 20 years of collective experience offering the highest standards for safety, quality, and integrity.
- Dedicated to Excellence, we utilize innovative building contraction, maintenance And renovation skills to change and improve the way Projects are designed, managed and build.

Occupational Safety & Health Policy

- Steelplan Sdn Bhd is committed to providing a safe and healthy working environment for all employees by conforming with current legislation, regulations, codes of practice and appropriate national standards.
- The objectives of this policy are to;
 - avoid, eliminate and control workplace hazards;
 - provide employees with safety information, supervision and training appropriate to the hazards they are likely to encounter;
 - continuously improve the standard of occupational safety and health for all employees.
- The responsibility for implementing this policy rests with the Chief Executive Officer. The Occupational Safety & Health officer has the authority to act as the Safety Co-ordinator and is responsible for initiating and driving all safety and health strategies on behalf of the Chief Executive Officer.
- Safety and health issues will be dealt with in consultation with employees through the elected safety and health representative. The council will provide the time and resources necessary to implement this policy and will implement a strategy of hazard identification, risk assessment and develop the necessary plans and procedures to improve all aspects of workplace safety and health.
